

Weekly Progress Report
Amity School of Engineering & Technology
B. Tech: Program

WPR No: 2	Duration: 27 July 2026 – 2 August 2026
------------------	---

Weekly Progress Report (WPR) for Minor Project

To be filled by Students	
Students Name	Rohit Yadav, Vishal, Hardik Mehlawat (Group 148)
Roll no.	472 (Rohit), 568 (Vishal), 449 (Hardik)
Enrollment no.	A2305223472 (Rohit), A2305223568 (Vishal), A2305223449 (Hardik)
Project Title finalized, if Yes, give name, if NO, give reason	Yes — Deep Learning for AI-Generated Image Detection: A Review of CNN, Vision Transformer, and Explainable Approaches
Synopsis submitted	Submitted (on Amizone, with offer letter)
Literature review	Collection round 1 complete: 101 records gathered, 75 unique candidates after de-duplication; screened to 48 primary + 12 secondary studies and 15 background references
Technical & Economical Feasibility	Not started
Bill of Material	N/A (literature review project this semester)
Project Progress Schedule (PERT Chart)	Week-wise schedule prepared; PERT chart pending
Design of critical components	Paper structure fixed (8 sections); screened papers mapped to sections
Fabrication work (give %)	N/A
Experimental work (give %)	Not started (planned for Semester 8)
Result and Analysis	Not started
Report writing	Not started (drafting scheduled from Week 4)
Signature of students	
Work done in this week	
Literature collection round 1 was completed following the Week 1 search protocol. Using the defined query seeds, candidate papers were gathered in six topic strands (GAN-era CNN detection, diffusion-model detection, frequency-domain forensics, transformer/CLIP-based detection, datasets and surveys, explainability and background) from arXiv, publisher and proceedings pages, and Google Scholar. In total 101 records were gathered; after removing 26 duplicates, 75 unique candidates were compiled with title, authors, year, venue, DOI/arXiv ID and source link. Title/abstract screening against the inclusion/exclusion criteria gave 48 primary detection and dataset studies (for full-text reading next week), 12 secondary studies, and 15 background references. Stage-wise counts were recorded for the PRISMA-style flow figure, and six entries were re-verified against their arXiv pages as an early citation-integrity check.	
To be filled by Guide (strike off whichever is not applicable)	
Performance of students is satisfactory ☐	
Performance of students is unsatisfactory ☐	
A warning to be issued to student(s) (Name) _____	
Student was not well (Name) _____
